Result-Based Management Professional Development Summit

Building a Results-Oriented Public Sector Ecosystem

April 29, 2025

8:30 AM - 06:30 PM EST

120 University Private, Ottawa

RBM SUMMIT 2025

What is PPX?

The Performance and Planning Exchange (PPX) is a non-profit Canada-based international centre of excellence for learning, sharing and developing expertise in performance and planning – including its measurement, implementation, public reporting and management.

RBM Summit

*This is a **NEW** event and replaces the popular PPX Annual Symposium.*

The Summit is a collaborative initiative between PPX (Performance and Planning Exchange) and the University of Ottawa's Centre on Governance. This intensive one-day learning event brings together practitioners and experts, industry, and academic insights to advance the practice of RBM in the evolving public sector landscape. The RBM Summit is developed to support the "results community of practice". This diverse and dynamic group brings together experts with a variety of skills, including strategic planning, risk management, and performance measurement, as well as monitoring, evaluation, auditing and performance reporting, fostering an enriching exchange of new ideas and best professional practices.

The RBM Summit welcomes participants from governments, the private sector, think tanks, research organizations, civil society organizations, and other stakeholders engaged in the results agenda. Open to attendees from across Canada and internationally, the Summit offers both in-person and online participation options, ensuring accessibility for a coast to coast to coast and global audience. Additionally, all workshop videos will be available for streaming post-conference, allowing for continued learning and engagement. Whether you're a seasoned practitioner or new to results-based management, this Summit provides an invaluable opportunity to connect, learn, and contribute to the evolving field of RBM in public administration.

Full information on the 2025 Summit may be found at ppx.ca/new-rbm-summit-2025
