## What is PPX?

The Performance and Planning Exchange (PPX) is a non-profit Canada-based international centre of excellence for learning, sharing and developing expertise in performance and planning – including its measurement, implementation, public reporting and management.

# RBM Summit

Building on the resounding success of the 2025 RBM Summit—which attracted strong participation from federal departments, NGOs, universities, and partners such as the Treasury Board of Canada Secretariat, PPX and the University of Ottawa’s Centre on Governance invite you to the RBM Summit 2026 on April 28, 2026, at the University of Ottawa.

This hybrid event brings together the results community of practice to share leading-edge ideas, tools, and experiences in Results-Based Management.

## Event Overview

The Summit is a collaborative initiative between PPX (Performance and Planning Exchange) and the University of Ottawa’s Centre on Governance.

It convenes practitioners, experts, industry representatives, and academics to advance RBM in an evolving public sector landscape—focusing on strategic planning, risk management, performance measurement, monitoring, evaluation, auditing, and reporting.

## Program Highlights

- Morning Keynote: Indigenous perspectives on results through a relational framework
- Evening Keynote: Using theories of change for RBM to guide, alert, and avoid false signals
- Workshops (English & French): Topics include responsible AI-assisted RBM, automating government with performance measurement, community/public sector alignment, smart RBM leveraging AI and data tools, military procurement integration, results culture in federal contexts, and research/innovation impacts (NSERC cases)

The Summit welcomes participants from governments, private sector, think tanks, research organizations, civil society, and stakeholders across Canada and internationally. With in-person/online options and post-event workshop recordings, it fosters broad learning for all levels.
